UPDATE RSS AD HOC COMMITTEE ON ETHICS

In recent years, a number of RSS members have expressed concerns about observing or experiencing instances of unethical and unprofessional behavior during our annual meetings or in their interactions with other RSS colleagues. The RSS Council takes these concerns very seriously and recognizes that our society currently has no specific guidelines that outline our expectations for ethical behavior by our members, and no process by which to receive and address complaints by members.

At the 2016 annual business meeting, the society membership passed a motion in support of developing and adopting a Code of Ethics, such as the one followed by the American Sociological Association (ASA). During that discussion, there was also a suggestion that we explore options for whether and how the society might adopt a Policies and Procedures for implementing and enforcing any ethics code.

The RSS Council has appointed an Ad Hoc Committee to move the issue forward. The committee consists of 8 members: Douglas Jackson-Smith, Kathy Brasier, Jennifer Sherman, Jamiko Deleveaux, Raheen Chandler, Tom Rudel, Leif Jensen and Cynthia Struthers.

The Ad Hoc Committee has met once to discuss rough drafts of a Code of Ethics and Policies and Procedures document for the society. Our working drafts draw on language from both ASA and International Association for Society and Natural Resources (IASNR) codes. We plan to finalize a draft proposal for discussion by the RSS Council at their fall meeting in November. After Council reviews our work, we plan to circulate the draft to the full RSS membership for feedback in December and January, with a goal of incorporating their feedback and having the Council vote on a revised version formally at their mid-year meeting (in February). Since we believe it is critical that the society members be engaged in the discussion and to embrace our proposal, we plan to bring this issue to the full membership for a final vote at our 2017 Annual Meeting in Columbus.

To ensure that our work is addressing the concerns of members, the committee invites all RSS members to share examples of ethical issues that are a concern to them, and ideas about how RSS can best address these concerns through policies and procedures.

**THIRD BRIEF OF THE POPULATION TRENDS IN POST RECESSION RURAL AMERICA SERIES**

Colleagues,

We are very pleased to announce the third brief of the Population Trends in Post-Recession Rural America series! The brief series provides information about current trends confronting rural people and their communities in the United States. The briefs present cutting edge research in a way that is useful for and accessible to policy makers, community development practitioners, local governments, community groups and organizations, and other decision-makers.

The third brief in the series, How Migration Impacts Rural America by Miranda N. Smith, Richelle L. Winkler and Kenneth M. Johnson, discusses how trends in age-specific migration have impacted rural areas and develops a typology of migration patterns which have differential implications for rural communities. Subsequent briefs will be released on a rolling basis and can be found on the series website Population Trends in Post-Recession Rural America series. Upcoming briefs will focus on how aging and loss of services are becoming an issue in rural communities, rural housing trends, and birth outcomes in rural counties. All briefs will be available via the website. We will announce new contributions to the series when they are released and we also invite you to check the site often!

Current contributors are members of the W3001 project funded by WAAESD. We invite contributions from researchers examining population trends in contemporary rural America. Inquiries regarding submissions and any other questions about the series can be sent to the editorial committee at W3001@dces.wisc.edu
